### Description

#### Full Face Mask Series 9000

- Extremely lightweight full face mask, weights only 360 g
- Frameless lens made of scratch-resistant, solvent-resistant polycarbonate protects the eyes and offers a large field of vision.
- Mask body made of soft, TPE material which is gentle on the skin
- Easy access, easy to remove
- Easy maintenance and cleaning without tools
- Series 9000 full face masks can be easily combined with EasyLock<sup>®</sup> gas and particle filters, without any adapters or special pre-filters.
- Also available with EN 148-1 connectors
- Tested and certified to EN 136:1998 CL2
- Offers a high degree of flexibility and easy storage.
- The straps that rise up wide and two practical release handles make it easy to

put on and take off.

- The masks are low-maintenance, and the few spare parts can be exchanged and cleaned quickly and easily.
- An anatomical sealing lip gives the lightweight full face masks a comfortable, tight fit.
- Moldex full face masks are durable and meet the high requirements of class 2.
